

# PROTECT YOUR BUSINESS: NTH GENERATION COMPLIMENTARY ASSESSMENTS

## CIS Controls Gap Assessment

### Step-By-Step Process & Deliverables:

- An Nth Security expert explains every security control recommended by the CIS Critical Security Controls
- A Gantt chart and heat map are created to help guide your organization to better align with this valuable framework and best practice
- Nth advocates for your organization as a consultant to move forward with better compliance

## LogRhythm® Security Intelligence Workshop

### Learn How To:

- Workshop schedule TBD
- Practice threat scenarios inside an active real-world environment
- Navigate the LogRhythm web console using live data
- Create customized web dashboards
- Investigate security issues with a focus on specific use-case scenarios
- Review log activities and alarm data

## Varonis Risk Assessment

### Key Benefits:

- Identifies and prioritizes at-risk areas like global access, stale data, and inconsistent permissions
- Discovers overexposed, sensitive, and classified data, including PII, HIPAA, PCI, and more
- Reviews access controls and authorization processes to discover how you can improve your system's security
- Analyzes file access to determine where you're most at-risk, and easily reduces your risk profile
- Exposes data vulnerabilities, so that you can be confident in your data security

## Proofpoint Security Assessment

### Key Benefits:

- Gain visibility on threat exposure in your email and social and mobile environments
- Uncover the advanced threat risk exposure of your organization including malicious URLs and attachments
- Generates automatic scan report with meaningful metrics including number of mailboxes scanned, number of malicious messages found, top threats, and more

**IF YOU ARE INTERESTED, PLEASE CONTACT YOUR  
NTH ACCOUNT MANAGER OR SEND AN EMAIL TO [INFO@NTH.COM](mailto:INFO@NTH.COM).**

### Thycotic Privileged Account Management (PAM) RISK Assessment Tool

#### Key Benefits:

- Based on cybersecurity and compliance standards from ISO, NIST, PCI, CIS, CSC, and EU GDP
- Fast installation providing an immediate Risk Score of your current PAM practices
- Detailed (PDF) report highlighting your responses and PAM practice vulnerabilities
- Sent via email, including recommendations on how to lower Privileged Account security risks

### Cylance Protect® Proof of Concept Artificial Intelligence Endpoint Protection

#### Key Benefits:

- CylancePROTECT® uses artificial intelligence and machine learning to identify and prevent malware attacks
- Cloud-based Management Console simplifies deployment and reduces operational overhead
- Lightweight Agent only uses 1-3% of PC processing power

### Darktrace Enterprise Immune System Assessment

#### Key Benefits:

- Correlates unique "pattern of life" for every device and user on a network to spot threats
- Using unsupervised learning, Darktrace identifies anomalies that would traditionally go undetected, and automatically learns from an organization's ongoing activity in real time to detect threat behaviors as they emerge

### Fortinet Cyber Threat Assessment

#### Key Benefits:

- Next generation firewalls and a security fabric enabling a "single pane of glass" approach to a suite of leading security solutions
- ASIC-Based solutions providing greater density and speeds with a much stronger ROI than the competition
- Protecting the network with broad visibility, integrated detection, and automated response through the Security Fabric

Enterprise company

### Aruba User and Entity Behavior Analytics (UEBA) Deep-Dive Demo

#### Key Benefits:

- Leverage AI-based machine learning to spot insider threats and attacks with Aruba IntroSpect
- Gain visibility into "risk score" via deep monitoring of every user, and entity (malicious, compromised or negligent users, systems, and devices)
- Immediate risk score based alerts that can trigger automated action to stop malware/bad actors when paired with Aruba Clearpass
- Secure a deep-dive view into IntroSpect and learn how this UEBA technology can be your best SIEM and NTA solution all in one
